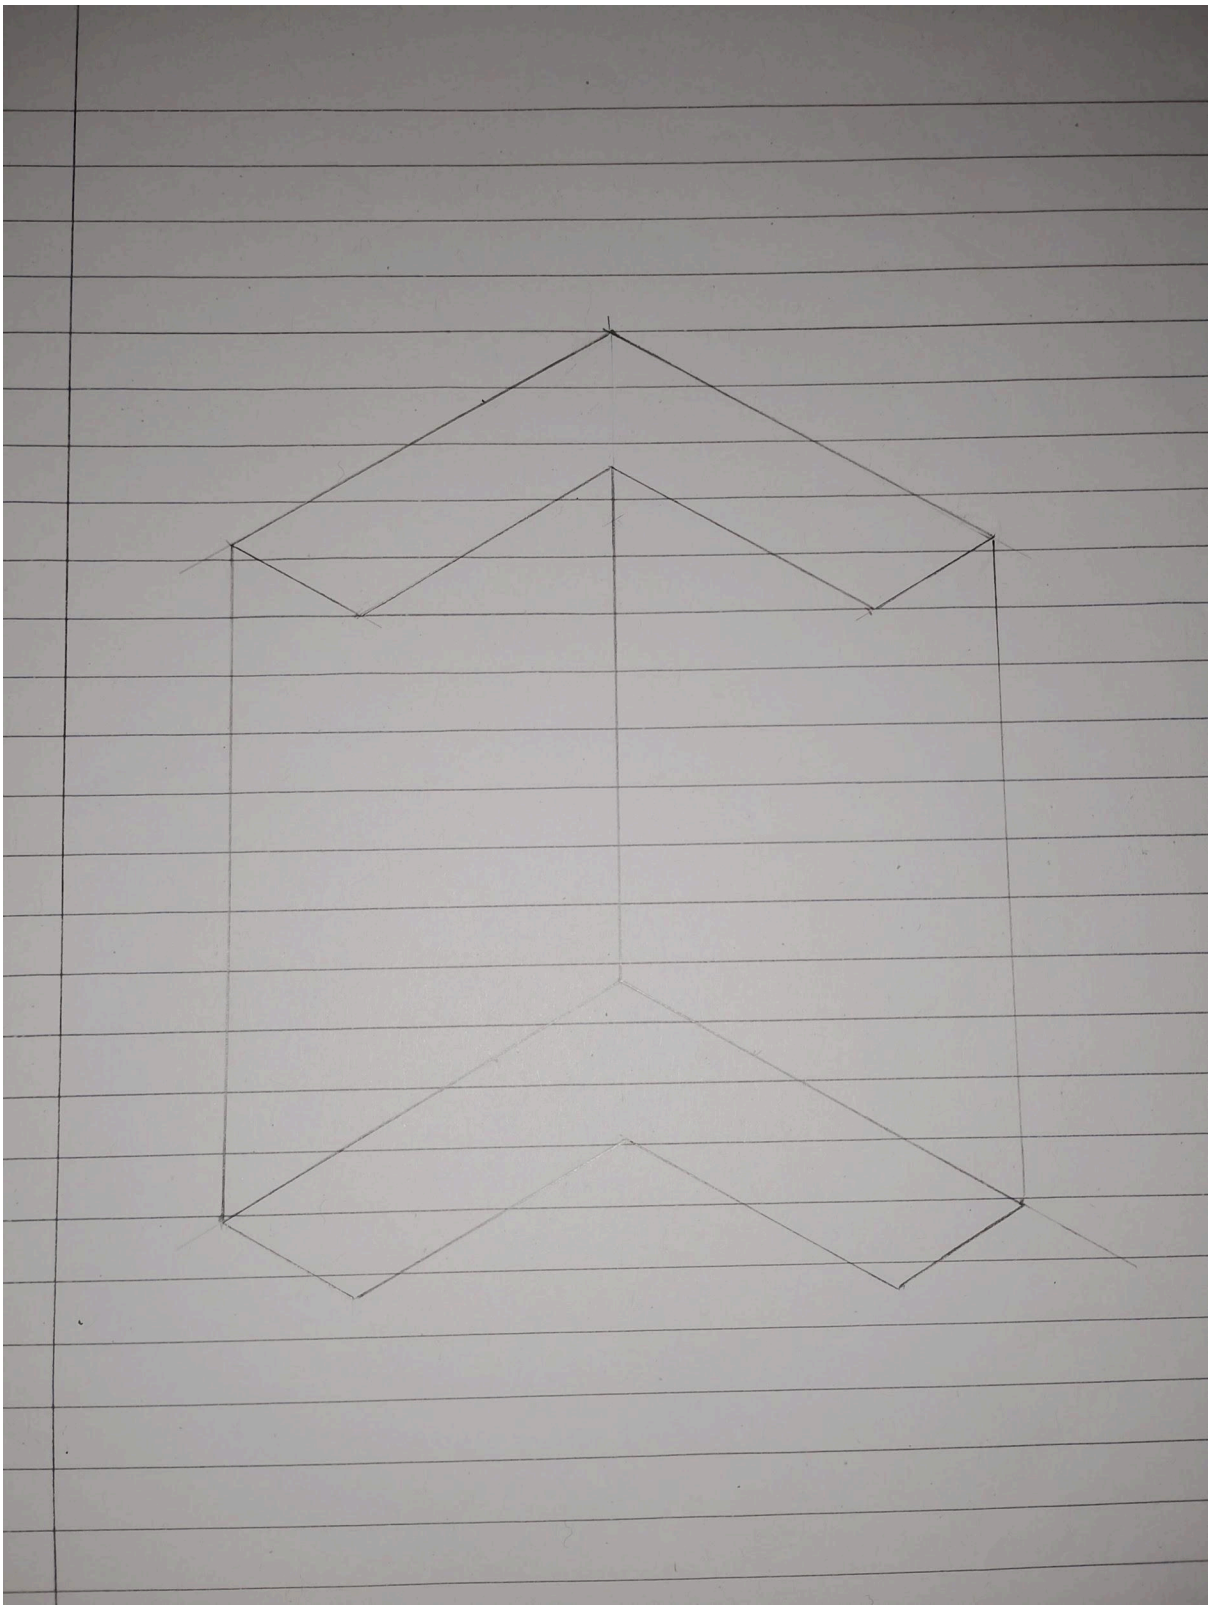
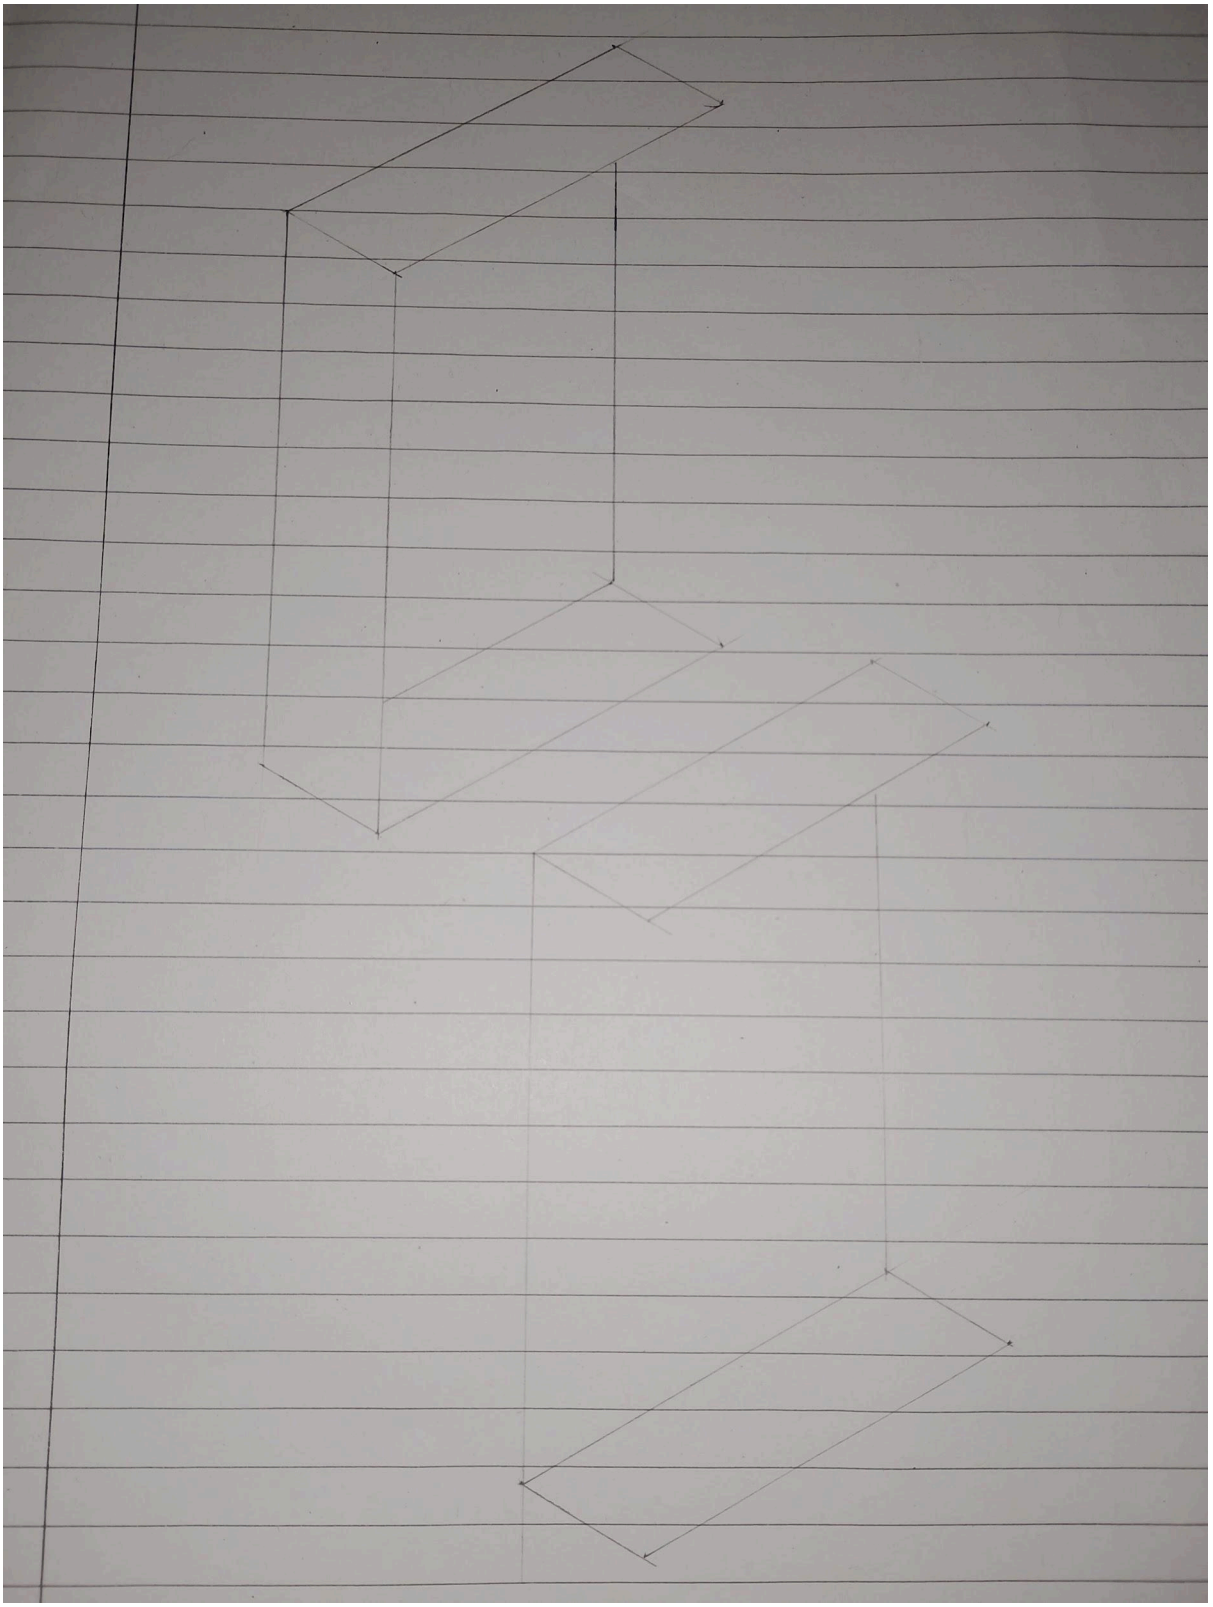
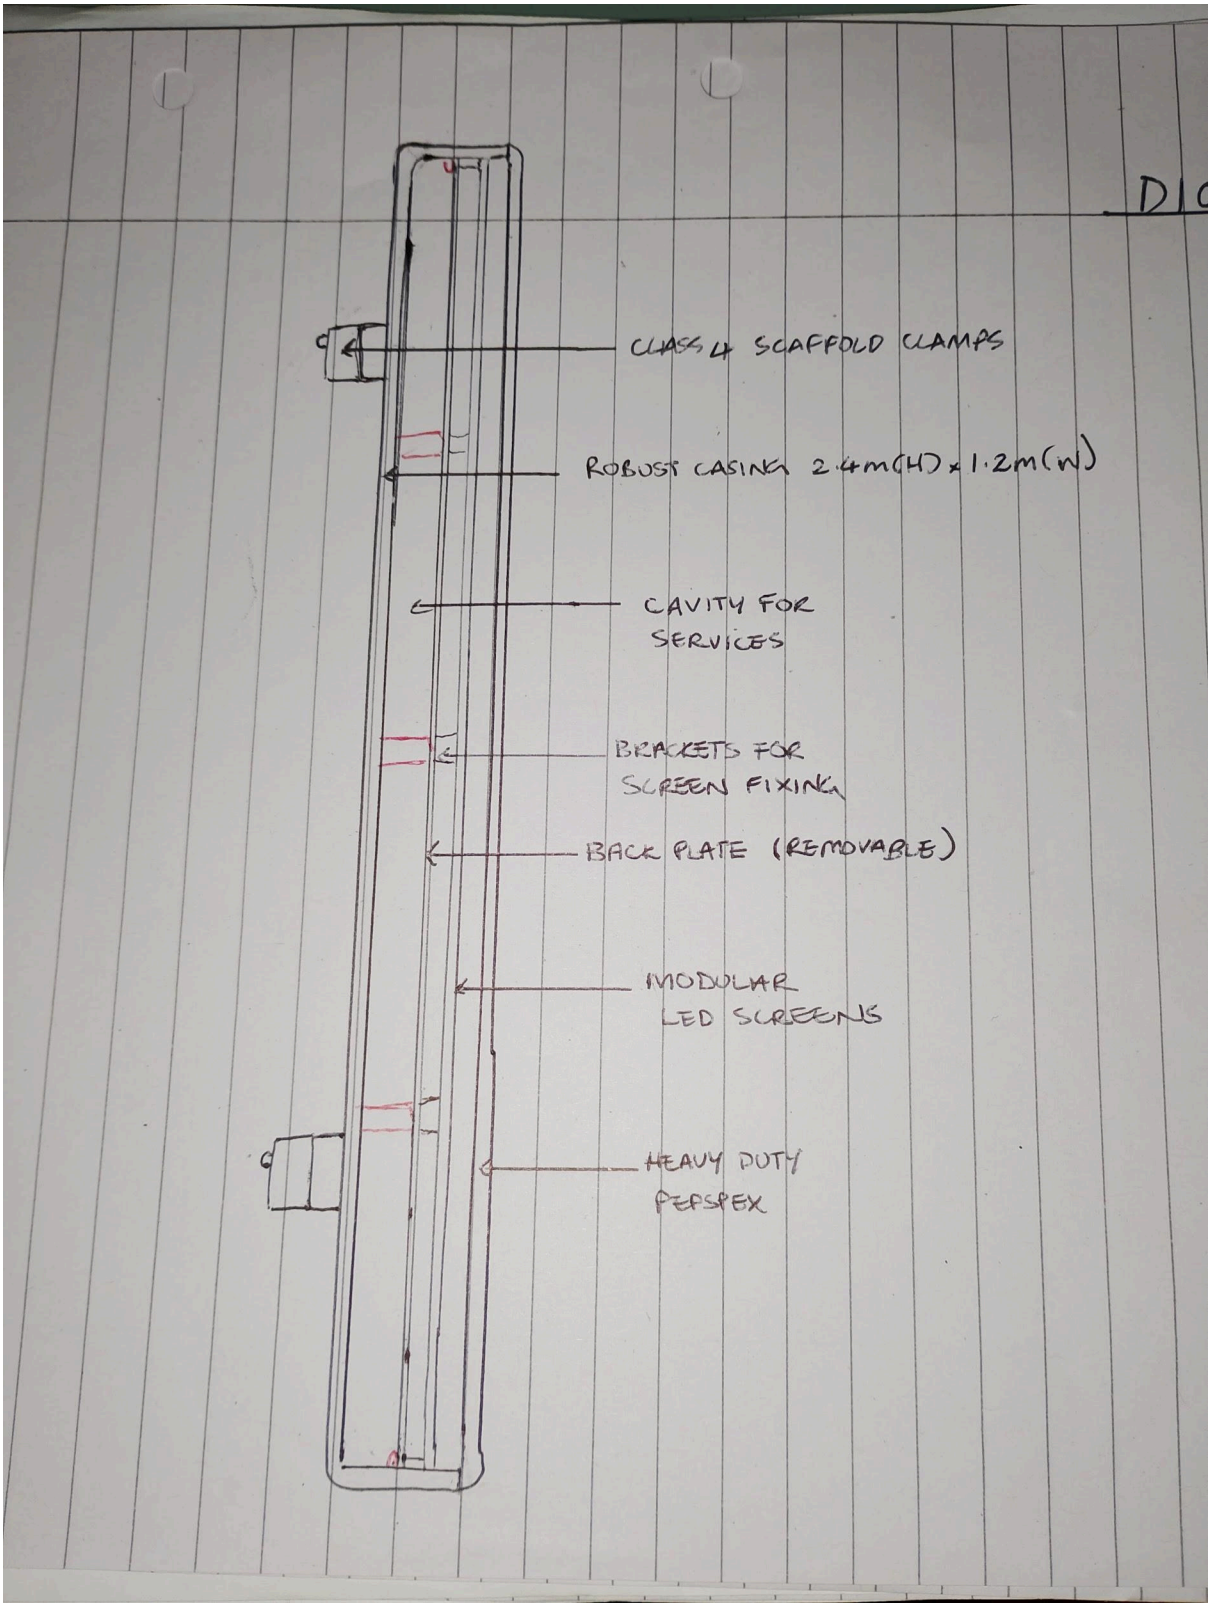
Each side section is 1m wide from the back edge



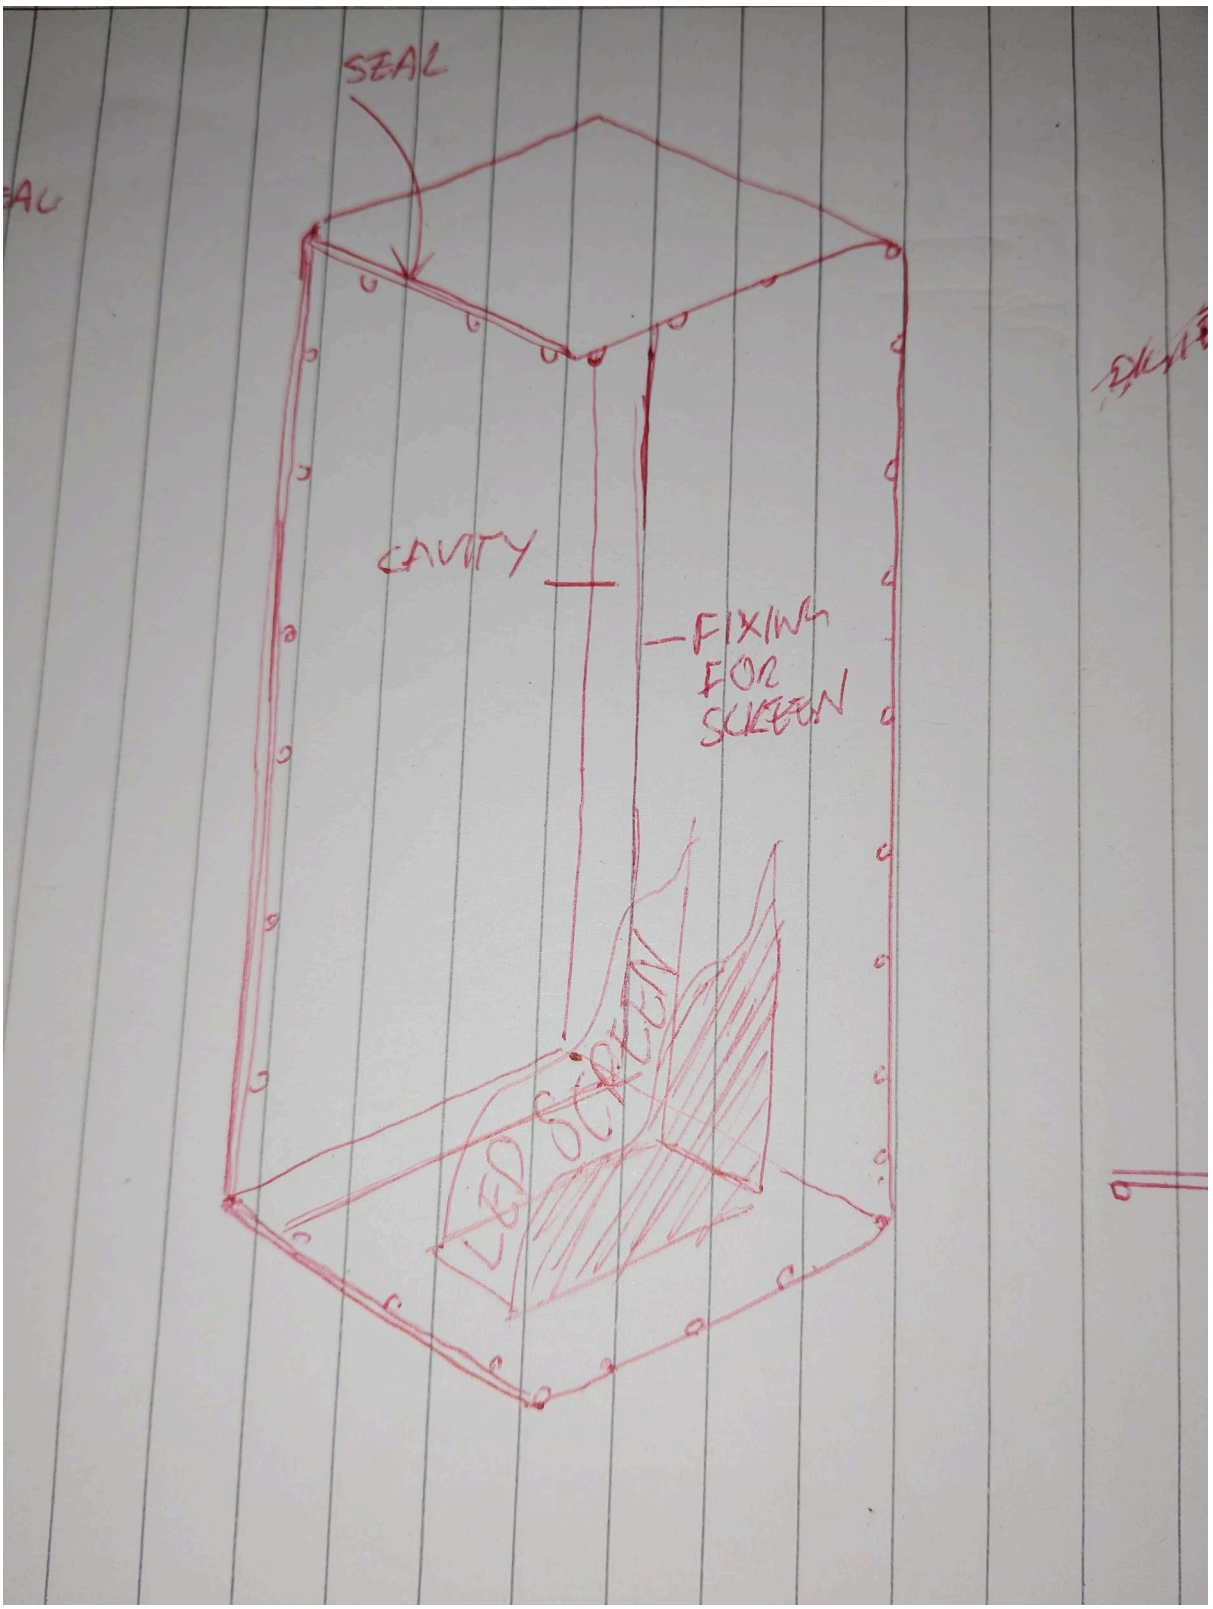
DigiPerim- internal corner 2.44m high, each section is 1m wide from the back edge



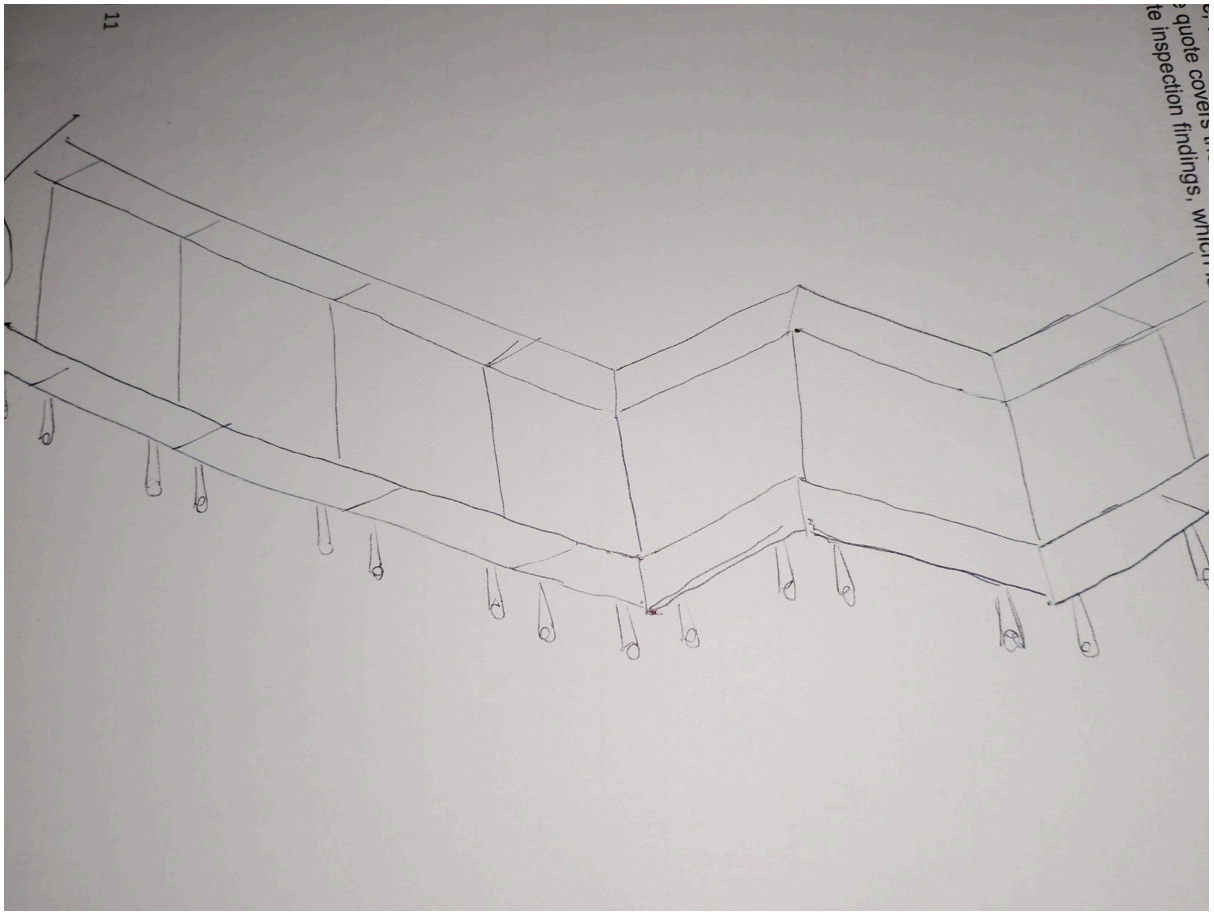
Top sketch: DigiPerim- Closing cabinet: 2.44m high x 1m wide
Bottom sketch: DigiPerim- coupler cabinet: 2.44m high x 1m wide



Side view of DigiPerim, all cabinets will have this setup to allow to hand and fix a screens and protect with covers.



Again all cabinets will have these installed on them so they can coupled together and have a protector screen fitted.



Sketch showing multiple cabinets together

With the cabinets would be fabricated using 2-4mm sheet metal pressed cut or welded we need to get prices and then there would be some modification to the shell to allow screens to be fitted inside, cabinets to be fitted to pole system, hardware fitted etc.
